- X1-Air Travel Details can then be viewed on-screen or downloaded as a PDF/printed and then sent via email.

Where?

- mytrip.hahnair.com or simply through <https://www.hahnair.com/travel-details>

The screenshot shows the Hahnair website's 'Travel Details' page. At the top, there is a navigation bar with the Hahnair logo, links for 'Products & Services', 'About Us', and 'Partner Carriers', a search icon, a globe icon, a user icon, and a 'Quick Check' button. The main heading is 'Travel Details'. Below this, there is a section titled 'Travel Details' with a paragraph explaining that users can check their H1-Air or X1-Air travel details by entering a passenger's surname and a record locator (GDS, H1, X1, or airline) or ticket number. It notes that travel agents should forward this information to the passenger and that only bookings under the H1 or X1 code are accessible. A second paragraph mentions that online check-in is available for some partner airlines, with opening times varying by carrier. There are two links: 'How to guide (H1-Air)' and 'How to guide (X1-Air)', both with download icons. Below these is a link 'See example' with a right-pointing arrow. The search form consists of two input fields: 'Last name e.g. SMITH' and 'Booking reference or ticket number e.g. 4ON5MQ', followed by a blue 'Search' button. At the bottom of the form, a blue-bordered box contains an information icon and the text: 'By clicking "Search" you acknowledge that you have read and agreed to the Terms and Conditions.'
