

NOW HIRING

Artificial Intelligence (AI) Developer (f/m/d) for Innovation Team based in Dreieich (near Frankfurt), Germany

Collaborating with a handful of experts from all over the world, you will perform real pioneering work. As part of the Innovation Team you will develop prototypes based on disruptive ideas and the latest digital trends in artificial intelligence, machine learning, chatbots and digital assistants. In return, we offer you the freedom you need to get involved, design and leave your footprint in the world through real digital solutions.

OUR OFFER

- > multi-cultural working environment with English as the company language
- > flat hierarchies and short decision paths
- > spacious workspaces with the latest technological equipment
- > flexible working hours promoting a greater work-life balance
- > a work culture of appreciation with regular corporate and team events
- > free beverages, meals and a game room to unwind

YOUR JOB

- > research business ideas and recommend solutions, including model inputs, model design frameworks and end products that drive the innovation of the company
- > apply machine learning unsupervised and supervised methods to develop new analytical solutions
- > design, develop and maintain bots (conversational or voice)
- > build, train and optimise machine learning models
- > convert machine learning models into APIs
- > develop machine learning algorithms
- > learn and grow so you can improve daily

YOUR PROFILE

- > university degree in computer science, mathematics or a similar qualification
- > several years of professional experience, preferably in a start-up environment
- > solid domain knowledge in machine learning and text/data analysis/natural language processing techniques for classification, detection, key attribute extraction, segmentation or activity detection
- > strong skills in JavaScript, Python, R, HTML 5 and CSS
- > very good knowledge of machine learning frameworks tensorflow, keras, spark, scikit or metaflow
- > experience working with Big Data systems like Hadoop
- > proven experience working with conversational agents such as IBM Watson, API.ai, Amazon Lex, Dialogflow, and Microsoft Bot
- > familiar with cloud platforms like Google, AWS and Azure
- > very strong knowledge in linear algebra and calculus
- > business fluent in English

Hahn Air is a German scheduled and executive charter airline. Since 1999 it offers indirect distribution services to other airlines and thus provides ticketing solutions to 100,000 travel agencies in 190 markets. With 20 years of experience, the company has established itself as the market leader. Today, Hahn Air's partner network encompasses more than 350 partner airlines. Every year millions of passengers travel between 4,000 locations using Hahn Air's HR-169 tickets. At our head office in Dreieich, conveniently located just a few driving minutes from Frankfurt, you will be working with over 300 people from more than 30 different countries.

ARE YOU READY FOR TAKE-OFF AT HAHN AIR?

Laura Colell is looking forward to receiving your application.
