- > The X1-Air Travel Details can be accessed through Hahn Air's website [www.hahnair.com](http://www.hahnair.com) by entering the passenger's last name and PNR (GDS, X1 or airline PNR).
- > X1-Air Travel Details can then be viewed on-screen or downloaded as a PDF/printed and then sent via email.

### Where?

- > [mytrip.hahnair.com](http://mytrip.hahnair.com) or simply through [www.hahnair.com](http://www.hahnair.com) > Partner Carriers > X1-Air Profile > X1-Air Travel Details

The screenshot shows the Hahn Air website's 'Partner Carriers' page. The navigation bar includes 'Hahn Air', 'About Hahn Air', and 'Partner Carriers' (highlighted with an orange box). The main heading is 'more than a ticket' in a script font. Below it, a paragraph states: 'The German scheduled and executive charter airline Hahn Air has specialised in distribution services for its more than 350 partner airlines and ticketing solutions for over 100,000 travel agencies in 190 markets.' The main content area is titled 'Partner Carriers' and contains the text: 'Flights of 370 partners can be issued on HR-169 tickets worldwide. Please use the filter options below to find out more about our partners and their availability.' Underneath, there are 'Filter options' with five tabs: 'Name or code', 'Country of ticketing', 'Origin of partner', 'Type of partner', and 'Latest partners'. The 'Name or code' tab is active, and a search input field below it contains the text 'X1: X1 (Hahn Air Technologies)' (highlighted with an orange box) and a clear 'x' button.
